Housing efforts

CUFNA has just created a new housing committee. With the various issues concerning student “party house” rentals, and the continued encroachment of apartment buildings, it was felt that the CUF community should make a positive effort to set the direction of housing in our neighborhood. With that in mind, Craig Lloyd, Jack Martin, and Chip Kussmaul, with input from Jules Rosen, have had a number of meetings in order to address these issues. We will meet monthly and report back to the CUF board.

Of course, housing in our community is a big issue. We have a lot of ground to cover, and we are approaching it from two different directions. First, we have developed an agreement with CHCURC to identify and restore distressed properties. We are looking for properties in foreclosure and/or which have numerous code violations against them. Such properties would be renovated and then either sold or rented out to responsible parties. We are still investigating what area(s) might be the best place to start. Of course one of the biggest issues is financing. This will be one of CHCURC’s primary responsibilities. There are various funding sources available, and with CHCURC’s background with financing redevelopments, we hope to proceed relatively smoothly.

The second direction is to establish CUF as a unique neighborhood by creating an overlay district. CUF is actually one of the first suburbs of Cincinnati, and has the distinction of having had both the Bellevue and Fairview inclines,

which were connected by streetcars. A study is just beginning in which significant buildings and areas will be listed. In the end, we hope to establish that CUF has a unique character that is worth preserving. This is not an effort to force homeowners to conform to arbitrary requirements. Rather, we want to maintain the neighborhood’s unique character. If you have any thoughts about this, please get in touch with us.

We have seen OTR change, in a very short time, from a place that people avoid, to a place that people enjoy. Change is coming to all of Uptown, whether we like it or not. It is the hope of the CUF Housing Committee that we can get out in front of these changes and lead them in a desirable direction that benefits us all.

Policing meeting

Dear Friends,

With the appointment of Eliot Isaac as the City's permanent police chief, we are reaffirming our commitment to the Collaborative Agreement and community oriented policing while acknowledging that we must always strive to improve. Last week we hosted a kick off roundtable at CAA with great interest. In the coming weeks we would like to follow up with the community and will be hosting a series of meetings that seek public input in each of Cincinnati's five police districts during January and February.

Please join myself, City Manager Harry Black, Police Chief Isaac and Law and Public Safety Committee Chairman Christopher Smitherman for any one of the district meetings, see details below. We think that you have an important voice to add to the discussion and would appreciate it if you would participate and share your insights.

Meeting schedule details are below:

- District 5 meeting: 6:30-8:30 p.m. on Feb. 22, College Hill Community Center, 5545 Belmont Ave.

I look forward to seeing you soon.

Sincerely,

John Cranley

OES

2015 was a busy year for the City of Cincinnati's Office of Environment and Sustainability (OES).

• Midwest Regional Sustainability Summit

OES partnered with Green Umbrella and Xavier University's Brueggeman Center for Dialogue to produce the 1st Annual Midwest Regional Sustainability Summit in 2015. The Summit, attended by more than 300 individuals representing more than 150 businesses and organizations, is focused on helping small and mid-sized businesses grow their businesses and their profits by embracing green business practices and offering green products.

• Environmental Advisory Council Reorganized

The City's Environmental Advisory Council (EAC) was created by City Council Resolution in 1976, and has been advising city government on environmental matters for nearly 40 years. In 2015, the EAC was reorganized and re-energized. A new slate of advisors was recruited and appointed, including more racial, age, gender, and political diversity.

• Food Policy Council Created and Staffed & Local Food Advocate Hired

Thanks to successful grant applications authored by OES, the Greater Cincinnati Regional Food Policy Council launched in 2015, staffed by a Director, and a Local Food Advocate was hired. A funding consortium including Interact for Health, the Carol Ann and Ralph V. Haile, Jr./US Bank Foundation, and The Funders Network came together to ensure that Cincinnati has the infrastructure to develop and implement food policies and programs that enable Cincinnatians to produce, process and consume more fresh, healthy, local food.

• Energy Manager Position Created

In 2015, the City created and staffed an Energy Manager position in the Office of Environment and Sustainability. OES managed the completion a \$7.8 million dollar Energy Performance Contract with Honeywell. This contract included the conversion of 4800 street lights to LED lights, as well as LED conversions of external lights at many Recreation, Health, and Public Services buildings.

Inclusive Cincinnati

Last summer, I worked with the Cincinnati Human Relations Commission to host a fun dinner with a diverse group of guests to discuss how to we could end discrimination of all kinds.

As a continuation of that effort, I have started a Facebook group called Inclusive Cincinnati:

<https://www.facebook.com/Inclusive-Cincinnati-Connecting-Cultures-and-Communities-1563143477303920/>

The goal of this group is to (1) provide fun social events where people of various backgrounds can come together and (2) promote positive human relations.

Feel free to like the page to see information about upcoming events.

I look forward to your participation!

Best,

Christine
